

**Newbuilding**

Group of companies MARINE TECHNICS was established in 1997. Since 2004 we have been supplying equipment for newbuilding projects.

Within these 5 years we have built a strong team of professionals. Working close to different shipyards, design offices and ship owners MARINE TECHNICS has supplied the equipment for more than 70 newbuilding projects. Thus for the last years the Russian fleet was equipped with reliable and quality products, for example more than 170 MAN marine engines were installed. For most of our partners MARINE TECHNICS now means more than just stability and expertise.

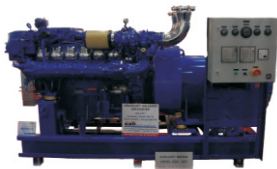

MARINE TECHNICS represents marine equipment of leading manufacturers on exclusive basis, well known for high quality products.

We provide:

- Technical support and aftersales
- Quality management
- Delivery of equipment all over the world
- Installation and start-up works
- Consultations

Today we obtain leadership position in this field, having own network of offices in 8 major ports of Russia and CIS - St.-Petersburg (Russia), Baku (Azerbaijan), Vladivostok (Russia), Petropavlovsk-Kamchatskij (Russia), Kaliningrad (Russia), Murmansk (Russia), Rostov-on-Don (Russia), Nikolaev (Ukraine). Being closer to our customers we know better their needs and do our best to satisfy them.
